

Introducing Qora Cladding from Arcitell—a world leader in high-end composite building materials. Qora takes the very best attributes of authentic stone, brick, and wood facades and has created the same look and feel using a patented, revolutionary fiberglass-reinforced rigid foam core. Qora is different. Qora panels capture the texture, color, and variation of authentic materials, yet at a fraction of the cost of the real thing. And, they are lightweight and install like siding.

## Create New Possibilities with the Qora Cladding Collection

### Qora Stone™

- **Ashlar Drystack** — Creates a stately and distinctive look of authentic precision crafted Ashlar stone, with narrow joints, brilliant coloring, and stunning earth tones.
- **Natural Stone** — The aesthetic beauty of a modern concrete wall or accent - but at a fraction of the weight, cost, and time.
- **Cut LedgeStone Tightstack** — The timeless quality of stacked stone and the beauty of a modern, textured finish.

### Qora Brick™

- **Antique** — Antique Brick features a weathered “aged” appearance for a stately appearance that lasts.
- **Traditional** — Nothing says “Classic” more than brick. The Qora Traditional Brick profile provides a smooth, stately appearance to fit any architectural style.

### Qora Wood™\*

- **Channel Oak** — Qora Channel Oak features a natural woodgrain profile for the true look and texture of wood.

\*Currently available as accessories only.
