

QORA CUT LEDGESTONE TIGHTSTACK

The timeless quality of stacked stone and the beauty of a modern, textured finish.

When modern, stone composite innovation is combined with the old-world quality of stacked stone, you have Qora Cut LedgeStone TightStack.

Qora Cut LedgeStone TightStack is a lightweight, easy-to-install, panelized cladding system that achieves the look and feel of genuine stone, without the time and expense often associated with masonry. It's your immediate cladding solution to achieve an indistinguishable, stacked stone aesthetic that is ideal for exterior accents, knee wall and wainscoting applications.

Qora Makes Installation Simple

Lighter. Faster. Easier.

Our innovative, lightweight cladding panels make installation faster and simpler than traditional manufactured stone.

Hangs Like Siding.

With a few basic tools, you can easily install panels in rows, edge to edge, with convenient accessory pieces for opening and corners. Specially designed edges fit flush for a seamless look.

No Mason. No Problem.

You don't need a professional mason or masonry skills for a stellar stone look. Simple carpentry skills help you create the beautiful stone look at a fraction of the cost.

Installs Faster and Cheaper Than the Alternatives

Thanks to its large, yet lightweight panels, Qora's quick and easy installation helps save time and labor. Less time and less work mean more savings.
