

# NO MORE *COMPROMISES*

The lightweight, durable, easy-to-install stone cladding product that is indistinguishable from the real thing.

## Innovative Four Layer Design

Qora Cladding is a composite consisting of:

- ▶ Modeled Surface
- ▶ Fiberglass-Reinforced Skin
- ▶ Rigid Foam Core

## Qora Makes Installation Simple

### Lighter. Faster. Easier.

Our innovative, lightweight cladding panels make installation faster and simpler than traditional brick or manufactured stone.

### Hangs Like Siding.

With a few basic tools, you can easily install panels in rows, edge to edge, with convenient accessory pieces for opening and corners. Specially designed edges fit flush for a seamless look.

### No Mason. No Problem.

You don't need a professional bricklayer or masonry skills for a stellar stone look. Simple carpentry skills help you create the beautiful stone look at a fraction of the cost.

## Installs Faster and Cheaper Than the Alternatives

Thanks to its large, yet lightweight panels, Qora's quick and easy installation helps save time and labor. Less time and less work mean more savings.
